Barbados is a very beautiful island, with lots of art, music, history and activities. It is a coral island, pushed out of sea by volcanic activity in a far away time. On the West Coast, coral shore beaches of fine white sand stretch along a blue-green sea. Coral reefs fringe the Barbados shoreline to provide excellent snorkeling and Scuba Diving. Along the East Coast a lively surf is blown briskly by the strong and constant trade winds and the waves pound against a rocky shore. The constant breeze of the trade winds give the island a mild and pleasant tropical climate.

When you visit, you will see it is mostly a flat coral island with excellent beaches, but there are rolling hills and many deep ridges and gullies, with an interesting distribution of flora and fauna. Within the coral core there is a vast array of caves and underground lakes which provide an excellent supply of drinking water that is amongst the purest in the world. Geologically Barbados is unique, being actually two land masses that merged together over the years. This and other anomalies make this Caribbean Island quite phenomenal, and there are geological structures that you will find only in Barbados.

If you're looking for a little adventure to accompany your rest and relaxation, there's plenty to see and do during your stay.

Take a tour of Bridgetown, the capital and largest city of Barbados, less than five minutes from the resort. Stop in and buy some gifts at the local shops, or go for a walk through history by touring some of the local museums and historical sites. Located in the heart of Bridgetown you will find National Heroes Square which features gardens, fountain and monuments.

Barbados is a golfers paradise. Home to 5 PGA Standard golf courses (Apes Hill, Royal Westmoreland, Sandy Lane Country Club, Sandy Lane Green Monkey and Barbados Golf Club), as well as a 9-hole course at Rockley Resort, Barbados has lots to offer golfers.
